

Dear diary today at Randal Cremer`s yard there was a crash and you must carry on reading this because it is very serious it wasn`t really a big crash but it nearly broke every bit of it, the teacher was going to talk about the crash but when she saw this she changed the whole thing to investigate what has been going on I will print this off when I finish. If you have an idea of what has been going on, you can tell me, I am in Randal Cremer Primary, Violet class Year 3.

There is nothing to be worried about, we just need to investigate what has been happening. It looks like a car because of the big wheels of the top of the old breakfast club. If you want to see me at eight o` clock 8:00, go to the back next to the playground at the back. It will have pictures of fruits on the wall and then go upstairs on the right → and there will be some teachers and kids having breakfast, I will be at the table next to the biggest, I will be sitting on the end, my name is Milo, I am usually doing my homework and my friend Kevin might be there so we can do maths together.

There is green goo around the crash. Give me your opinion and tell me what you think it is and maybe you can help us figure out what has been happening and help solve one of the biggest mysteries in the school, a sudden crash on the front playground in the yard, a very mysterious occasion. There might be a police tape or ambulance and the police on Sunday said “it`s nothing to be worried about, just don`t let the children touch it”.

### **Neno`s opinion-Brother`s opinion.**

I think that this is a mysterious event that has occurred in the school as of now. Both we; the students and teachers probably do not understand the new craft or what people say U.F.O (Unidentified Flying Object), but for now. All personnel should stay away from the new ‘thing’ just in case this could be something really serious that can do harm to adults or children and if that does happen, please call a teacher or adult for first aid as soon as you can. But overall, this shouldn`t do any harm any time soon as if this has crashed in the field, then it should be broken and I doubt any aliens want to attack us human beings, who are the most powerful animals in the whole kingdom and dare I say, entire world. Concerning the Goo, I am stumped about its identity and creation but shouldn`t be serious to anyone. Just stay safe everyone: D

Please don`t think this is a joke it can harm other human`s in the school.
